EXPERIENCE

IT Intern | Internship

January - May 2025

Mitsubishi Power (Philippines) Inc.

Ag & P SEZ, San Roque, Batangas, Philippines

- Developed the CATAF Request and Disposal Application for the Finance Department using Microsoft Power Apps, integrated with SharePoint for efficient data management.
- Automated approval and submission workflows via Power Automate, accelerating processing times and reducing manual tasks.
- Collaborated with finance staff to gather requirements, test functionality, and enhance user experience.
- Created comprehensive documentation and training materials to support adoption and ongoing maintenance.

PROJECT

One Tingloy | Capstone Project

July - December 2024

- Designed and developed a responsive web-based tourism platform to showcase destinations, accommodations, and attractions in Tingloy, Batangas.
- Built the system using HTML, Bootstrap, JavaScript, PHP (CodeIgniter), and MySQL, implementing dynamic, database-driven features.
- Optimized an intuitive admin dashboard to improve content management and user interaction.
- Collaborated closely with the Vice Mayor of Tingloy, Batangas to align the platform with local tourism strategies and community needs.

CERTIFICATIONS
