## EXPERIENCE

### IT Intern | Internship

January - May 2025

Mitsubishi Power (Philippines) Inc.

Ag & P SEZ, San Roque, Batangas, Philippines

- Developed the CATAF Request and Disposal Application for the Finance Department using Microsoft Power Apps, integrated with SharePoint for efficient data management.
- Automated approval and submission workflows via Power Automate, accelerating processing times and reducing manual tasks.
- Collaborated with finance staff to gather requirements, test functionality, and enhance user experience.
- Created comprehensive documentation and training materials to support adoption and ongoing maintenance.

## PROJECT

### One Tingloy | Capstone Project

July - December 2024

- Developed a responsive tourism web platform for Tingloy, Batangas using HTML, Bootstrap, JavaScript, PHP (CodeIgniter), and MySQL.
- Collaborated with the Vice Mayor of Tingloy to ensure the platform aligned with local tourism goals and community engagement efforts.
- Implemented database-driven features to manage destinations, accommodations, and attractions.

### LakBayan | Collaborative Academic Project

May 2024

- Created using Python (Kivy Framework), an interactive tutoring app teaching Philippine history to preschool-grade 1 students.
- Implemented storytelling, quizzes, and multimedia to make learning engaging and fun.
- Collaborated with teammates in developing functional modules and integrating interactive learning.

## CERTIFICATIONS

- CompTIA IT Fundamentals (ITF+) – CompTIA | May 2025
- AWS Academy Graduate – AWS Academy Cloud Foundations – AWS Academy | December 2024
- Cybersecurity Essentials – Cisco Networking Academy | May 2024
